Part No. 50-01-6301-81

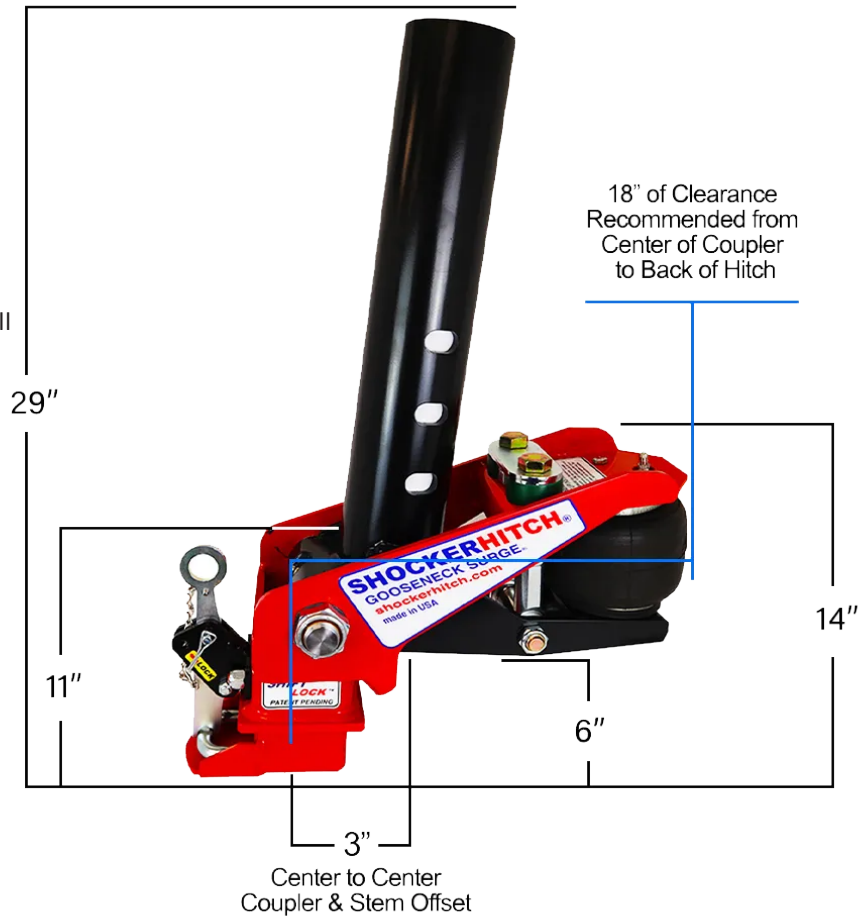

COUPLERS

GN SURGE AIR SHOCKER HITCH W/SHIFT LOCK 30K COUPLER & 4" ROUND STEM-ANGLED HOLES

Part No. 50-01-001052

HOW MUCH AIR PRESSURE DO I NEED FOR MY SHOCKER GOOSENECK AIR HITCH?

ANSWER: If you have a light horse trailer it might be as low as 15 lbs of air pressure. If you're hauling a gooseneck trailer with a skid steer, you might be around 20 lbs of air pressure. If you're an industrial hauler with 25,000 lbs you may be 25-35 lbs of pressure. Play with the air a little, it will tell you what it likes.

AXLES

AXLE, 16K HYD DISC HD, W/HUTCH SPRINGS, 71/43, OIL, 8 ON 275MM - HUTCH REAR

Part No. LA167143827OHC-HR

HOW TO MEASURE

Hubface and spring center

Hubface: Measure outside to outside of each hub

Spring center: Measure center to center

How to measure: Spring center & hub face

The hub face is the distance from the outside of one hub to the outside of the hub on the opposite side of the axle. Spring center is measured from the center of the spring seat on one side of axle to the center of the spring seat on the other side of the axle.

AXLES

**75 AXLE, TORFLEX 10K ELE GD, 94/74.5OB 22.5 DOWN, OIL,
