

TARP ARM ALIGNMENT GUIDE

 **DIAMOND C**

Step 1

- Deploy the tarp and unroll all the way out.

Step 2

- Unbolt the arm on the “high” side from the mounting bracket on the side of the dump bed.

High Side

Low Side

Step 3

- Once the last bolt is taken out, the bracket will rotate into the correct position.
- Re-mount the arm to the bracket and tighten all bolts & nuts.

Step 4

- Roll tarp back up
